has been interesting to study the are not necessing to study the spirit of the soldiers as reflected in the messages to fund donors. The first cards received—those sent by the advance guard of troops which went abroad last year—all expressed determination and a will to win, but there was an occasional admission of homesickness. Gradually, as Parshing's men sickness. Gradually, as Pershing's men set into action and advances were made by our arms, every suggestion of dis-content disappeared.

The cards now arriving are notable for the spirit of optimism which they breathe. "On to Berlin" is apparently the slogan of all our troops and, from all indications, there isn't a man who is not confident that the progress will be steady.

The Shuberts had hoped that the hot spell would abate a bit in order that the premiere of "The Blue Pearl" with George Nash might be a successful occasion at the Longacre, but it seemed fairly apparent that whatever the tem-perature might have been it would have helped but little.

Stephen Drake ......... George Nash

The piece represented to be a drama; it bears a faint resemblance to "The Thirteenth Chair." It concerns itself with a blue pearl given by a husband to a woman not his wife. This blue pearl, which is matchless, is stolen during a hypnotic sitting and the question that arises is: Who has the pearl? The mystery is ultimately solved, with melo-dramatic effects, by the Police Commissioner, ably represented by George Nash, who makes the slarming discovery that the wife of the husband who has a mis-

tress took the jewel.
Grace Carlyle has something to say about her husband, but whether it is the one she has for the time being or the stock broker she divorced some years back is not made clear. Just what her present husband is may be safely answered in the line from the play: me some money and I'll ask no ques-tions." And her brother arrives on the scene and helps to complicate matters.

All of which may seem to be rather necherent, but so is the play. George Nash did not have the oppor-unities he had in "Officer 656," but he at New Canaan, Conn.
